

Croydon Creek Nature Center

Spring Festival & Native Plant Sale

Saturday, April 25, 2015 • 10 a.m. to 2 p.m.

Plant sale pre-order deadline April 10, 2015 • Pick-up orders April 25, 2015, from 10 a.m. to 2 p.m.

Why use native plants? Native plants are adapted to local weather and soil environments. These plants allow homeowners to add beauty to their landscape while preserving natural heritage and providing habitat and food for area wildlife, including a variety of bird and insect species. Additionally, native plants require less long-term maintenance compared to exotic ornamental species.

Native Plant Descriptions

Black-eyed Susan

Golden yellow blooms last July to October providing seed for birds and nectar for butterflies. Height: 2 to 2 ½ feet. Exposure: Full or partial sun.

Golden Groundsel

Shiny green foliage with golden daisy-like flowers that will bloom even in the shade. Attracts native butterflies. Height: 12 in. Exposure: Full sun to full shade.

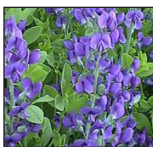

Virginia Bluebell

A native woodland flower with blue bell shaped flowers at the end of arched stems with large smooth leaves that thrives in moist soils. Height: 1-2 feet. Exposure: Partial shade to partial sun.

Dwarf Crested Iris

Large flashy flowers on a diminutive stem that need lots of water. Height: 6-8 in. Exposure: Full sun to full shade.

Blue False Indigo

A bushy perennial with bluish purple pea-like flowers and pod like fruits that is drought tolerant. Height: 2-4 feet. Exposure: Full sun.

Ostrich Fern

Elegant green foliage that thrives in cool moist shaded areas. Height: 3-6 feet. Exposure: Full to partial shade.

Stonecrop

A succulent and low growing native that is a great groundcover for shady areas. Height: 6 in. Exposure: shade to partial sun.

Bleeding Heart

Providing color in the shade, this pink-flowered native also adds texture to the garden with finely fringed leaves. Height: 12-18 in. Exposure: Partial to full shade.
